Communal bin review - Parking zones S1 - S4 - TRO/21/25

The City of Edinburgh Council has advertised a Traffic Regulation Order ([TRO/21/25](#)) which will amend waiting and parking restrictions at various locations in Zones S1 - S4.

The Communal Bin Review (CBR) project involves the redesign of the existing waste and recycling communal bin services that the Council provides to ca. 60,000 multi-occupancy and flatted properties.

The project is aiming to:

- increase and improve recycling services to residents in multi-occupancy and flatted properties providing integrated waste and recycling services;
- improve overall recycling performance;
- review the existing bin locations to develop more formalised collection hubs to improve the perception of the service and enhance the streetscape;
- improve waste and recycling service reliability;
- ensure the service reflects changes to legislation and policies within and outwith the Council.

To implement the Communal Bin Review aims, it is proposed to re-locate on-street communal waste and recycling bins into more formalised new hubs which will require changes to the existing layout of parking places and other road-related restrictions.

The details of the parking arrangements have been amended on the [Grange road tiles](#) and can be reviewed there for the streets within the Grange.

Comments and objections can be submitted until 3 December 2021, quoting notice reference number TRO/21/25 to TRO.consultations@edinburgh.gov.uk or by post to Traffic Orders, Place, 3.3 Waverley Court, 4 East Market Street, Edinburgh EH8 8BG.
