

**Planning Application 24/04893/FUL - 11 Palmerston Road EH9 1TL**

**OBJECTION from Grange Association**

**7 November 2024**

We have reviewed planning application [24/04893/FUL](#) and submit this objection, relating to the materials proposed for the extension.

The proposed extension at first- floor level will be clad entirely in zinc. There has been no attempt to blend the extension with the materials of the main villa. This will present a stark alien façade to the adjacent neighbour and be highly visible from the street, dominating the northern aspect of the property.

We request that the applicants be invited to reconsider this material and to change it to stone cladding for the vertical walls with slate roofing or another material more consistent with the main villa, to sit more comfortably in the conservation area.
